

NDIS Code of Conduct, Rights, Choice & Control

Everyday worker obligations and participant rights

Suggested training type: Read + mini quiz Suggested pass mark: 80% Review/validity: 12 months recommended review cycle

Learning objectives

- Identify the core behaviours required by the NDIS Code of Conduct.
- Apply respect, privacy, integrity, competence and prompt action to daily support.
- Support choice, control, dignity and decision-making.
- Recognise conduct that may be abusive, exploitative, unsafe or sexually inappropriate.

1. Who the Code applies to

The NDIS Code of Conduct applies across the NDIS market, including registered and unregistered NDIS providers and workers. It establishes baseline expectations for safe, ethical and respectful supports.

2. The Code in practical language

- Respect individual rights, freedom of expression, self-determination and decision-making.
- Respect privacy.
- Provide supports safely and competently, with care and skill.
- Act with integrity, honesty and transparency.
- Promptly take steps to raise and act on concerns that may affect the quality and safety of supports.
- Take reasonable steps to prevent and respond to violence, exploitation, neglect and abuse.
- Take reasonable steps to prevent and respond to sexual misconduct.
- Do not exploit NDIS participants through unfair pricing or other dishonest conduct.

3. Choice and control

Choice does not mean workers must agree with every decision. It means the person is supported to understand relevant information, communicate preferences, make decisions to the extent possible, and be involved in decisions affecting them. Workers should avoid unnecessary control or paternalism.

4. Dignity and respect in ordinary moments

Respect is demonstrated in everyday behaviour: knock before entering private spaces; ask before touching a person or their belongings; use the person's preferred name and communication method; do not talk about the person as though they are not present; and do not disclose personal information casually.

5. Red flags

Humiliation, threats, coercion, financial exploitation, sexual comments or conduct, deliberate neglect, rough handling, retaliation for complaints, unauthorised restrictions, or hiding incidents are inconsistent with safe NDIS support and must be escalated.
